SPECIAL NOTICE

This list is intended for the TRADE ONLY. If it reaches people NOT entitled to Trade Prices, we will thank any Nurseryman or Florist to advise us, so that our mailing list may be corrected. We do not employ agents. We do not pack dealers' orders on our grounds. We do not authorize dealers to use our name.

1889 - 1939

Chase, Alabama,
October 18th, 1939.

To The Trade:

This issue, our 50th Anniversary number, is almost "DeLuxe"—larger, better quality, more illustrations with an added touch of color, worthy we think to commemorate our Fifty Years in business.

It was not so long ago that, forced to economize and in keeping with the times, we printed one issue on brown wrapping paper in red ink (1932-33) followed by issues that gradually brought us out of the red to black-on-white (1935-36)—remember? While this issue is all dressed up a close perusal will convince you that we still purvey quality stock at reasonable prices.

Our output this year is of high grade, having had ample moisture when needed throughout the growing season. We again solicit your orders with the assurance that you may depend upon the same attention to detail—digging, grading, handling and packing—that our organization has maintained all these years. We can give you special handling on "Rush Orders" as always.

With this issue we announce the election of Henry Homer Chase, youngest son of the late Robert C. Chase, to succeed his father as Secretary-Treasurer of this Company.

We are deeply grateful for that continued confidence and patronage of our customers that makes possible our Fiftieth Anniversary. We cherish the hundreds of old friends of many years; we welcome and appreciate every new account.

Very truly yours,

CHASE NURSERY COMPANY.

1889—1939

Our 50th year.

GRADES

We grade liberally. All shrubs of specified sizes are well furnished and well rooted. Culls are as rigidly excluded from the lightest grades listed as from the heavier stock. Our rule is, "WHEN IN DOUBT, PUT IT IN THE LOWER GRADE." Detailed information as to our method of grading Hedge Plants and Roses is given under such heads.

TRANSPORTATION RISKS

While we use every means at our command to secure prompt delivery, WE ARE NOT LIABLE FOR DELAYS IN TRANSIT; OUR RESPONSIBILITY ENDS UPON DELIVERY IN GOOD ORDER TO CARRIER. Remedy

Our plants are grown from wood taken from the famous Wisteria of Sierra Madre, California, said to be the largest in the world. Planted in 1893 as a small shoot, it now covers an acre of trellises on a hillside. Its lavender mist of bloom enchants the thousands of visitors who every spring pay tribute to this magnificent specimen through a Wisteria Fete (See the **FLORIST'S REVIEW**, February 17th, 1938). One of our California friends writes: "I had the pleasure of seeing the Sierra Madre Wisteria last spring in full bloom. It is a gorgeous sight."

CONIFEROUS EVERGREENS

All of these Conifers are grown from cuttings, and transplanted in the field at least twice, except those marked "Pots", meaning grown in pots of the size specified. These field-grown plants, much stronger than Bed—or frame-grown stock, will be puddled in mud as dug, and the roots carefully packed in sphagnum moss. Potted stock will be shipped in paper pots of the size specified unless we are instructed to shake out.
